

2015年 国際学会

□The 75th the American Diabetes Association Scientific Sessions

2015.6.5-9 Boston, USA

(Poster)

- The clinical efficacy and safety of SGLT2 inhibitor in Japanese patients with type 2 diabetes.

Tosaki T, Kamiya H, Kato Y, Kondo M, Himeno T, Nakamura J.

- Transplantation of neural crest cells derived from 3D-aggregated dermal stem cells improves diabetic polyneuropathy in mice.

Kondo M, Kamiya H, Himeno T, Okawa T, Naruse K, Kato Y, Isobe K, Nakamura J

(Oral)

- Decrease of neuronal progenitor/stem cells in dorsal root ganglia of diabetic mice.

Himeno T, Hayes J. M, Backus C, Dauch J. R, Yanik B, Figueroa-Romero C, Kamiya H, Nakamura J, Feldman E.L.

□The 7thAASD Scientific Meeting

2015.11.20-23 Hong Kong

(Poster)

- Sequential changes in clinical findings of type 1 diabetic patients by replacing insulin glargine with insulin degludec.

Kato Y, Kamiya H, Kondo M, Himeno T, Naito E, Sugiura Y, Kojima C, Yamada Y, Ando T, Noda S, Nakai H, Nagao E, Hayami T, Asano E, Motegi M, Yoshida M, Hayashi Y, Shimauchi R, Kato K, Nakamura J.

- Comparison of acquisition data by the Medtronic Sof-sensor and Enlite in continuous glucose monitoring system.

Hirai N, Kato Y, Takagi M, Yamaguchi K, Komiyama M, Kondo M, Himeno T, Sugiura Y, Naito E, Kojima C, Yamada Y, Ando T, Kasagi R, Noda S, Nakai H, Nagao E, Asano E, Kamiya H, Nakamura J.
